

Revision: 000

Date: 1st December 2003

## 1. IDENTIFICATION OF THE SUBSTANCE AND COMPANY UNDERTAKING

General Chemical Name Neodymium(III)-oxide

Intended or recommended uses of substance: Research.

Supplier (Distributor) New Metals & Chemicals Ltd  
Newmet House, Rue de St. Lawrence  
Waltham Abbey, Essex, EN9 1PF  
Telephone: +44(0) 1992 711111

## 2. COMPOSITION/INFORMATION ON INGREDIENTS

Ingredient name	Concentration /range	*Classification	CAS No	EINECS No
Neodymium(III)-oxide	100%	Xi, R36/37/38	1313-97-9	215-214-1

\*see 16. OTHER INFORMATION for full text of R-phrases

## 3. HAZARD IDENTIFICATION

This product is irritant to the eyes, mucous membranes and skin.

## 4. FIRST AID MEASURES

Inhalation Move the patient to fresh air and administer 100 percent humidified supplemental oxygen with assisted ventilation as required. If breathing has ceased DO NOT use mouth-to-mouth respiration apply artificial respiration using oxygen and a suitable mechanical device such as a bag and a mask. Seek immediate medical attention.

Skin Contact	Flush skin with copious quantities of water. Remove and destroy all contaminated clothing and shoes. Seek immediate medical attention.
Eye Contact	DO NOT allow patient to rub or keep eyes closed. Irrigate with copious quantities of water for at least 15 minutes. Flush under eyelids by lifting lid. DO NOT use a static eye bath. Seek immediate medical attention.
Ingestion	DO NOT induce vomiting. If patient is conscious and alert, wash out mouth with water. Give nothing by mouth if patient is unconscious. Seek immediate medical attention.

Note: Ensure that medical personnel are aware of the material involved, and take precautions to protect themselves.

## 5. FIRE FIGHTING MEASURES

Precautions against fire and explosion

Not flammable

Suitable extinguishing media

Use fire fighting measures that suit the environment i.e. water.

Extinguishing media which must not be used for safety reasons

N/A

Special exposure hazards arising from the substance itself and its combustion products - including any gaseous by-products

Avoid exposure to material in dust , vapour or mist form.

Special protective equipment for fire fighters

Wear self-contained breathing apparatus and full chemical protective clothing. Decontamination must follow before removal of gear. Show documents to the emergency services.

## **6. ACCIDENTAL RELEASE MEASURES**

### Personal Precautions

Evacuate all but essential authorised control personnel. Wear self-contained breathing apparatus and gloves to avoid inhalation, skin and eye contact. Provide sufficient ventilation.

Structural firefighters` protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations.

### Environmental Precautions

Prevent entry into drains, surface and ground water, soil and confined areas.

### Methods for Cleaning Up

Only trained, authorised personnel should be involved. Fully encapsulating protective clothing and self contained breathing apparatus should be worn for spills and leaks . Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.

Cover spills with dry sand, dry diatomaceous earth or dry salt followed with plastic sheet to minimise spreading. To avoid dust formation do not dry sweep. Do not vacuum. Collect material and place it into loosely covered plastic containers.

Place residues in a closed plastic container, suitably marked, and dispose of through a licensed waste disposal contractor.

## **7. HANDLING AND STORAGE**

### Precautions for safe handling

Handle in a fume cupboard or dedicated LEV room.

Avoid breathing dusts or contact with skin and eyes.

Do not get in eyes, on skin or on clothing. Do not ingest or inhale.

Wash or decontaminate after handling. Wash hands before eating. Discard contaminated shoes.

Keep container tightly closed.

See section 8 for personal protective equipment.

### Precautions for safe storage

Store in a tightly closed container. Store in a cool, dry, well-ventilated area away from incompatible substances (see section 10). Protect from carbon

dioxide. The product is hygroscopic.

Specific use

Research..

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Exposure limit values

Ingredient name	OES LTEL (8hr TWA)	OES STEL (15min)	MEL (LT)	MEL (ST)
-----------------	-----------------------	---------------------	----------	----------

There are no occupational limits for this material.

However, dust exposure should be adequately controlled.

Total inhalable dust	10mg/m <sup>3</sup>
Total respirable dust	5mg/m <sup>3</sup>

### Occupational exposure controls

Eye protection	Wear appropriate protective eyeglasses, chemical safety goggles or full-face shield to European Standard EN 166.
Hand protection	Wear appropriate gloves. Gloves of nitrile or PVC may be used as single splash disposable gloves and must be discarded immediately after use. Gloves should comply with European Standard EN 374-3 class 3.
Skin protection	Use one or more of the following personal protection equipment as necessary. Full chemical protective suit to EN 465 standard, PVC apron, helmet and boots.
Respiratory protection	If product is not used in a fume cupboard or there is insufficient ventilation wear full face or hood compressed airline breathing apparatus to EN 139 or EN 270/271 alternatively use self contained breathing apparatus to EN 137. This equipment should always be available on standby.
Ingestion	Do not eat, drink or smoke when using this product. Do not ingest. Exhibit the strictest hygiene control.

### Environmental exposure controls

No specific environmental legislation applies in the EU at present; however in accordance with best practice only use in a fume cupboard or with local exhaust ventilation. In case of fire, spillage or leakage, prevent material from entering water courses, sewers or soil.

## **9. PHYSICAL AND CHEMICAL PROPERTIES**

### General information

Appearance White powder

Odour Odourless

### Important health, safety and environmental information

Melting point/melting range 2270<sup>0</sup>C

Boiling point 4118<sup>0</sup>C

Flash point N/A

Flammability (solid, gas) Not flammable

Autoignition temperature N/A

Explosive properties Product is not explosive

Oxidising properties Not determined

Vapour pressure N/A

Relative density 7.24g/cm<sup>3</sup> at 20<sup>0</sup>C

Solubility

-water solubility insoluble in cold or hot water

## **10. STABILITY AND REACTIVITY**

Conditions to avoid Stable under normal temperatures and pressures.

Materials to avoid Acids, air, carbon dioxide, water/moisture.

Hazardous decomposition products Metal oxide smoke.

## 11. TOXICOLOGICAL INFORMATION

Neodymium oxide does not present a high risk to health, however it can be hazardous in the form of dusts or fumes.

Dusts or fume may cause eye irritation. Symptoms include redness and watering.

The material may cause irritation to the skin and mucosa.

- |   |  |
|---|--|
| Effects from eye contact                                  | See above.   |
| Effects from skin contact                                 | May cause skin irritation. No allergic reaction have been reported.  |
| Effects from inhalation                                   | Irritating to respiratory system. Repeated exposure may cause lung damage and disorders such as bronchitis. Symptoms include difficulty in breathing, tightness in chest, cough, and dyspnoea. |
| Effects from ingestion                                    | Ingestion may cause nausea, congestive failure, abdominal pain & vomiting,   |
| (a) Acute toxicity (oral, inhalation, dermal)             |  |
|   | LD <sub>50</sub> rat oral >5000mg/kg   |
| (b) Corrosivity/irritation (eye, skin, respiratory tract) |  |
|   | Irritant for eye, skin and mucous membranes  |
| (c) Sensitisation (skin, respiratory)                     |  |
|   | No sensitising effects known   |
| (d) Repeated-dose toxicity                                | not tested/no data   |
| (e) Mutagenicity  | not tested/no data   |
| (f) Carcinogenicity                                       |  |
|   | No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.  |
| (g) Reproductive toxicity (fertility, developmental)      | not tested/no data   |

## 12. ECOLOGICAL INFORMATION

(1) Ecotoxicity

(a) Aquatic toxicity

(i)	acute and chronic for fish	not tested/no data
(ii)	“ “ “ “ daphnia	not tested/no data
(iii)	“ “ “ “ algae	not tested/no data
(iv)	“ “ “ “ other aquatic plants	not tested/no data

(b) Soil toxicity

(i)	macro organisms	not tested/no data
(ii)	micro organisms	not tested/no data
(iii)	birds	not tested/no data
(iv)	bees	not tested/no data
(v)	plants	not tested/no data
(vi)	fauna	not tested/no data

Although specific data is not available, it is established by experience that the material should not present a hazard in the environment. However, the material should not be released into the environment without proper authority.

(2) Mobility

No data available

(3) Persistence and degradability

No data available

(4) Bioaccumulation potential

No data available

(5) Other adverse effects

No other effects are known.

## 13. DISPOSAL CONSIDERATIONS

All waste material to be contained in a plastic sealed bin, duly marked, and disposed of as special waste through a licensed waste contractor in accordance with “The Special Waste Regulations 1996”. See sections 6 and 7.

## 14. TRANSPORT INFORMATION

Airfreight (IATA)      Seafreight (IMDG)      Road (ADR)      Rail (RID)

(a)	UN number	N/A
(b)	Class	N/A
(c)	Proper shipping name	N/A
(d)	Packing group	N/A
(e)	Marine pollutant (if applicable)	N/A
(f)	Other applicable information	N/A

**Neodymium(III)-oxide is not restricted for transport**

## 15. REGULATORY INFORMATION

EC Supply - Chip-3 regulations 2002, regulation 9

Xi      Irritant

Risk Phrases:

36/37/38:      Irritating to eyes, respiratory system and skin.

Safety Phrases:

26:      In case of contact with eyes, rinse immediately with plenty of water and seek medical advice

This material is subject to the COSHH regulations 2002. See COSHH Essentials for further information.

## 16. OTHER INFORMATION

R Phrases Full Text:

36/37/38:      Irritating to eyes, respiratory system and skin.

This material should only be handled by qualified, trained persons, fully familiar with its dangerous properties. During use or handling, a minimum of two persons should always be available.
