

Revision: 000

Date: 16th August 2004

1. IDENTIFICATION OF THE SUBSTANCE AND COMPANY UNDERTAKING

General Chemical Name Rhenium(VII)-oxide

Intended or recommended uses of substance: Research

Supplier (Distributor) New Metals & Chemicals Ltd
Newmet House, Rue de St. Lawrence
Waltham Abbey, Essex, EN9 1PF
Telephone: +44(0) 1992 711111

2. COMPOSITION/INFORMATION ON INGREDIENTS

Ingredient name	Concentration /range	*Classification	CAS No	EINECS No
Rhenium(VII)-oxide	100%	Xi: R36/37/38 O: R8	1314-68-7	215-241-9

*see 16. OTHER INFORMATION for full text of R-phrases

3. HAZARD IDENTIFICATION

This product is irritant to the eyes, mucous membranes and skin.
Contact with combustible material may cause fire.

4. FIRST AID MEASURES

Inhalation Move the patient to fresh air and administer 100 percent humidified supplemental oxygen with assisted ventilation as required. If breathing has ceased DO NOT use mouth-to-mouth

respiration apply artificial respiration using oxygen and a suitable mechanical device such as a bag and a mask. Seek immediate medical attention.

Skin Contact Flush skin with copious quantities of water. Remove and destroy all contaminated clothing and shoes. Seek immediate medical attention.

Eye Contact DO NOT allow patient to rub or keep eyes closed. Irrigate with copious quantities of water for at least 15 minutes. Flush under eyelids by lifting lid. DO NOT use a static eye bath. Seek immediate medical attention.

Ingestion DO NOT induce vomiting. If patient is conscious and alert, wash out mouth with water. Give nothing by mouth if patient is unconscious. Seek immediate medical attention.

Note: Ensure that medical personnel are aware of the material involved, and take precautions to protect themselves.

5. FIRE FIGHTING MEASURES

Precautions against fire and explosion

This substance is an oxidiser and its heat of reaction with reducing agents or combustibles may cause ignition.

Suitable extinguishing media

Carbon dioxide, extinguishing powder, water-jet.

Extinguishing media which must not be used for safety reasons

N/A

Special exposure hazards arising from the substance itself and its combustion products - including any gaseous by-products

Avoid exposure to material in dust , vapour or mist form.

Special protective equipment for fire fighters

Wear self-contained breathing apparatus and full chemical protective clothing. Decontamination must follow before removal of gear. Show documents to the emergency services.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions

Evacuate all but essential authorised control personnel. Wear self-contained breathing apparatus and gloves to avoid inhalation, skin and eye contact. Provide sufficient ventilation.

Structural firefighters` protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations.

Environmental Precautions

Prevent entry into drains, surface and ground water, soil and confined areas.

Methods for Cleaning Up

Only trained, authorised personnel should be involved. Fully encapsulating protective clothing and self contained breathing apparatus should be worn for spills and leaks . Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.

Cover spills with dry sand, dry diatomaceous earth or dry salt followed with plastic sheet to minimise spreading. To avoid dust formation do not dry sweep. Do not vacuum. Collect material and place it into loosely covered plastic containers.

Place residues in a closed plastic container, suitably marked, and dispose of through a licensed waste disposal contractor.

Wash spill site with water and detergent. Do not allow effluent to enter sewers or water courses.

7. HANDLING AND STORAGE

Precautions for safe handling

Handle in a fume cupboard or dedicated LEV room under dry protective gas.

Avoid breathing dusts or contact with skin and eyes.

Do not get in eyes, on skin or on clothing. Do not ingest or inhale.

Wash or decontaminate after handling. Wash hands before eating. Discard contaminated shoes.

Keep container tightly closed.

See section 8 for personal protective equipment.

Precautions for safe storage

Store in a tightly closed container. Store in a cool, dry, well-ventilated area away from incompatible substances (see section 10). The product is hygroscopic, protect from humidity and keep away from water. Store under dry inert gas.

Store away from flammable substances.

Store away from reducing agents.

The material can reduce the ignition temperature of flammable substances.

This substance is an oxidiser and its heat of reaction with reducing agents or combustibles may cause ignition.

Specific use

Research.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure limit values

Ingredient name	OES LTEL (8hr TWA)	OES STEL (15min)	MEL (LT)	MEL (ST)
-----------------	-----------------------	---------------------	----------	----------

There are no occupational limits for this material

Occupational exposure controls

Eye protection	Wear appropriate protective eyeglasses, chemical safety goggles or full-face shield to European Standard EN 166.
Hand protection	Wear appropriate gloves. Gloves of nitrile or PVC may be used as single splash disposable gloves and must be discarded immediately after use. Gloves should comply with European Standard EN 374-3 class 3.
Skin protection	Use one or more of the following personal protection equipment as necessary. Full chemical protective suit to EN 465 standard, PVC apron, helmet and boots.
Respiratory protection	If product is not used in a fume cupboard or there is insufficient ventilation wear full face or hood compressed airline breathing apparatus to EN 139 or EN 270/271 alternatively use self contained breathing apparatus to EN 137.

This equipment should always be available on standby.

Ingestion Do not eat, drink or smoke when using this product. Do not ingest. Exhibit the strictest hygiene control.

Environmental exposure controls

No specific environmental legislation applies in the EU at present; however in accordance with best practice only use in a fume cupboard or with local exhaust ventilation. In case of fire, spillage or leakage, prevent material from entering water courses, sewers or soil.

9. PHYSICAL AND CHEMICAL PROPERTIES

General information

Appearance Yellow powder

Odour Not determined

Important health, safety and environmental information

Melting point/melting range 297⁰C sublimes at 250⁰C

Boiling point N/A

Flash point N/A

Flammability (solid, gas) Not flammable, but contact with combustible material may cause fire.

Autoignition temperature N/A

Explosive properties N/A

Oxidising properties Not determined

Vapour pressure N/A

Relative density 6.103g/cm³ at 20⁰C

Solubility
-water solubility soluble in water (fully miscible)

10. STABILITY AND REACTIVITY

Conditions to avoid	Stable under normal temperatures and pressures.
Materials to avoid	Water/moisture, air, easily oxidised materials, reducing agents, organic materials, flammable substances.
Hazardous decomposition products	None known.

11. TOXICOLOGICAL INFORMATION

The toxicity of rhenium is low.

A specific review on the clinical effects and treatment of individuals exposed to this agent has not yet been prepared. The following pertains to the general evaluation and treatment of individuals exposed to potentially toxic chemicals.

No toxic manifestations have been reported in experimental animals or man.

The material is an irritant to skin, eyes and mucous membranes.

Effects from eye contact	May cause irritation. Symptoms include redness, watering with conjunctivitis.
Effects from skin contact	May cause skin irritation. No allergic reaction have been reported.
Effects from inhalation	Irritating to respiratory system. Repeated exposure may cause lung damage and disorders such as bronchitis. Symptoms include difficulty in breathing, tightness in chest, cough, and dyspnoea.
Effects from ingestion	Ingestion may cause nausea, congestive failure, abdominal pain & vomiting,
(a) Acute toxicity (oral, inhalation, dermal)	not tested/no data
(b) Corrosivity/irritation (eye, skin, respiratory tract) Irritant for skin, eyes and mucous membranes	
(c) Sensitisation (skin, respiratory) No sensitising effects known	
(d) Repeated-dose toxicity	not tested/no data
(e) Mutagenicity	not tested/no data

- (f) Carcinogenicity
No classification data on carcinogenic properties of this material is available from the EPA, IARC, NTP, OSHA or ACGIH.
- (g) Reproductive toxicity (fertility, developmental) not tested/no data

12. ECOLOGICAL INFORMATION

- (1) Ecotoxicity
- (a) Aquatic toxicity
- | | | |
|-------|------------------------------|--------------------|
| (i) | acute and chronic for fish | not tested/no data |
| (ii) | “ “ “ “ daphnia | not tested/no data |
| (iii) | “ “ “ “ algae | not tested/no data |
| (iv) | “ “ “ “ other aquatic plants | not tested/no data |
- (b) Soil toxicity
- | | | |
|-------|-----------------|--------------------|
| (i) | macro organisms | not tested/no data |
| (ii) | micro organisms | not tested/no data |
| (iii) | birds | not tested/no data |
| (iv) | bees | not tested/no data |
| (v) | plants | not tested/no data |
| (vi) | fauna | not tested/no data |
- (2) Mobility
- No data available
- (3) Persistence and degradability
- No data available
- (4) Bioaccumulation potential
- No data available
- (5) Other adverse effects
- No other effects are known.

13. DISPOSAL CONSIDERATIONS

All waste material to be contained in a plastic sealed bin, duly marked, and disposed of as special waste through a licensed waste contractor in accordance with "The Special Waste Regulations 1996". See sections 6 and 7.

14. TRANSPORT INFORMATION

<u>Airfreight (IATA)</u>	<u>Seafreight (IMDG)</u>	<u>Road (ADR)</u>	<u>Rail (RID)</u>
(a) UN number		1479	
(b) Class		5.1	
(c) Proper shipping name		Oxidising solid, n.o.s. (rhenium(VII)-oxide)	
(d) Packing group		III	
(e) Marine pollutant (if applicable)		N/A	
(f) Other applicable information		N/A	

15. REGULATORY INFORMATION

EC Supply - Chip-3 regulations 2002, regulation 9

Xi Irritant
O Oxidising

Risk Phrases:

8: Contact with combustible materials may cause fire.
36/37/38: Irritating to eyes, respiratory system and skin.

Safety Phrases:

17: Keep away from combustible materials
26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice
36/37/39: Wear suitable protective clothing, gloves and eye/face protection.

This material is subject to the COSHH regulations 2002. See COSHH Essentials for further information.

16. OTHER INFORMATION

R Phrases Full Text:

- 8: Contact with combustible materials may cause fire.
36/37/38: Irritating to eyes, respiratory system and skin.

This material should only be handled by qualified, trained persons, fully familiar with its dangerous properties. During use or handling, a minimum of two persons should always be available.
